

PROVIDING ULTRA HIGH-SPEED IMAGING SOLUTIONS TO INDUSTRY LEADERS & PROFESSIONALS

BETTER GEAR. BETTER RESULTS.

We've got the **gear** you need to **get the job done right.**

Exclusive North American Authorized
Representative of the **Shimadzu Hyper Vision**
line of ultra high-speed video cameras

West Coast Authorized Representative
of the **ix Cameras** line of high-speed
video cameras

The World's Sixth Sense®

North American Authorized Representative
of the **FLIR** line of high-speed infrared
video cameras & data recorders

HADLAND® IMAGING

CAMERAS • SYSTEMS • ACCESSORIES

Extremely Exquisite.
up to 10 million frames per second

Shimadzu Hyper Vision HPV-X2

Experience the Invisible with ultra high-speed video recording up to 10 million fps with 6x higher sensitivity (ISO 1600) than conventional video cameras. Featuring the FTCMOS2 Advanced Next-Generation Burst Image Sensor with a two camera synchronized recording function for DIC (digital image correlation) and 3D imaging in master/slave mode. *The best in its class.*

Bullet-Stopping Speed.
up to 1 million frames per second

ix Cameras i-SPEED 7 Series* (713, 716, 720 & 726)

Exceptional performance high-speed video recording for ballistics, sports, science, industrial, military & other fast moving phenomena – up to 1 million fps and in high resolution – 2048 x 1536 pixels. Loaded with features & options, great for DIC (digital image correlation).

* R versions with heavy-duty rugged environmental enclosures available

Go Thermal!

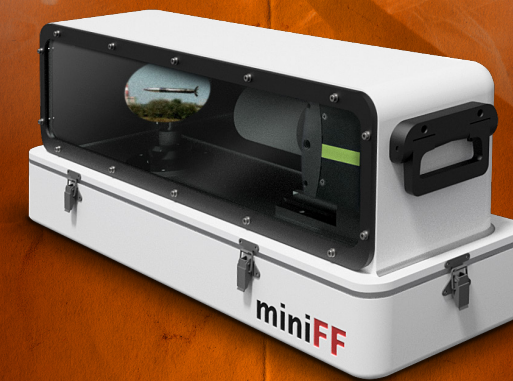

high-speed & high-definition MWIR

FLIR X6900sc/X8500sc HD MWIR Science-Grade Series

Feel the heat with award winning mid-wavelength infrared (MWIR) science-grade video cameras from FLIR. Experience thermal imaging at 2,000 fps with 2x the resolution of the competition or shoot high-definition & high-speed MWIR at 180 fps in full resolution – 1280 x 1024 pixels.

Turn-Key Solution.
brand new design

HADLAND / MSI miniFF (mini Flight Follower)

We're proud of our new & improved miniFF developed with our partner, MS Instruments. It's been redesigned to be lighter, more compact & easier than ever to set up to *do the work for you.* This all inclusive high-performance package *follows* speeding projectiles *in-flight* and records the action with high-speed video via a computer-controlled rotating mirror – camera included.

Light it Up.

the brightest LED systems & more

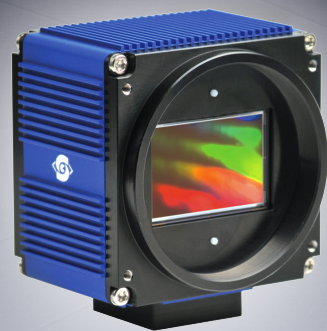

Accessorize with More Gear

REL SURE-bright™ & VIC Ultra-Bright LED lighting systems, controllers, mounts, supports, lenses & any gear you need to **get the job done right.** Our WRF-300 Flash (liquid light guide) is a perfect solution for point source illumination.

Compact Workhorse.

high performance with high resolution

SVS Vistek SVCam-HR

High performance with high resolution, 11–29 megapixels in a small, but mighty high-speed video camera. A perfect solution for quasistatic DIC (digital image correlation). Grab a pair today & start shooting.

On Target.

accurate results made easy

The complete line of easy to use, precision electronic acoustic & optical targets from our partner, MS Instruments. Perfect for ballistics testing at indoor ranges and in the field. Record & measure your results with MSI Ballistics DB software.

Motion Analysis.

measure your results

Xcitex ProAnalyst®

Revolutionary motion analysis software that turns your high-speed video camera into a precision measurement instrument. Available in professional, lite & special editions, each tailored towards specific industries and applications.
